

IN THE SPECIFICATION:

Please amend the specification as follows:

Pursuant to 37 CFR § 1.121(b)(1)(iii), a marked up copy of each paragraph amended below appears on the page immediately following each amendment.

Please delete page 1, line 4 to page 1, line 9, and insert the following therefor:

-- BACKGROUND

a1 The present disclosure relates to computer systems. More specifically, the present disclosure relates to dynamically generating a unique computer name for each computer system that is connected to a network of computer systems. --

Please delete page 6, line 5 to page 6, line 8, and insert the following therefor:

a2 -- In accordance with the present disclosure, a method of dynamically generating a unique information handling system name for each information handling system that is connected to a network of information handling systems and a system thereof is described. --

Please delete page 7, line 4 to page 7, line 7, and insert the following therefor:

a3 -- The present disclosure may be better understood, and its numerous objects, features and advantages made apparent to those skilled in the art by referencing the accompanying drawings. The use of the same reference number throughout the several figures designates a like or similar element. --

Please delete page 7, line 10 to page 7, line 12, and insert the following therefor:

a4
-- FIG. 2 illustrates an information handling system having a method for dynamically generating a unique information handling system name in accordance with the present disclosure; and. --

Please delete page 7, line 17 to page 8, line 4, and insert the following therefor:

a5
-- For a thorough understanding of the subject disclosure, including the best mode contemplated by the inventor, reference may be had to the following Detailed Description, including the appended Claims, in connection with the above-described Drawings. The following Detailed Description is intended to be illustrative only and not limiting.

Referring to FIG. 2, an information handling system 200 is shown that is suitable for implementing a method for dynamically generating a unique information handling system name in accordance with the present disclosure. In one embodiment, the information handling system 200 is a computer system. --

Please delete page 15, line 1 to page 15, line 5, and insert the following therefor:

a6
-- Although the method and system of the present disclosure has been described in connection with the preferred embodiment, it is not intended to be limited to the specific form set forth herein, but on the contrary, it is intended to cover such alternatives, modifications, and equivalents, as can be reasonably included within the spirit and scope of the disclosure as defined by the appended claims. --
